

Yurek

BAND STORY

"

In my youth I studied the classical guitar. I'm trying to make an illustrative or creative documentary film music but not commercial one. So far I've written music for a few documentaries and shorts. I am combining contemporary tones with traditional. In my compositions I am using all sorts of musical kinds. To the work I am using exclusively a computer.

By creating music Yurek does not identify directly with any musical genre, just follow his own imagination, which leads him once in the atmosphere of classical music once around illustrative and sometimes in areas of electronics and experiment. Often used custom solutions. All this, to attain this objective.
